

使用流程

在 `parse_comments_by_link()` 这个函数中将 `email` 和 `password` 变量改成你自己的账号信息

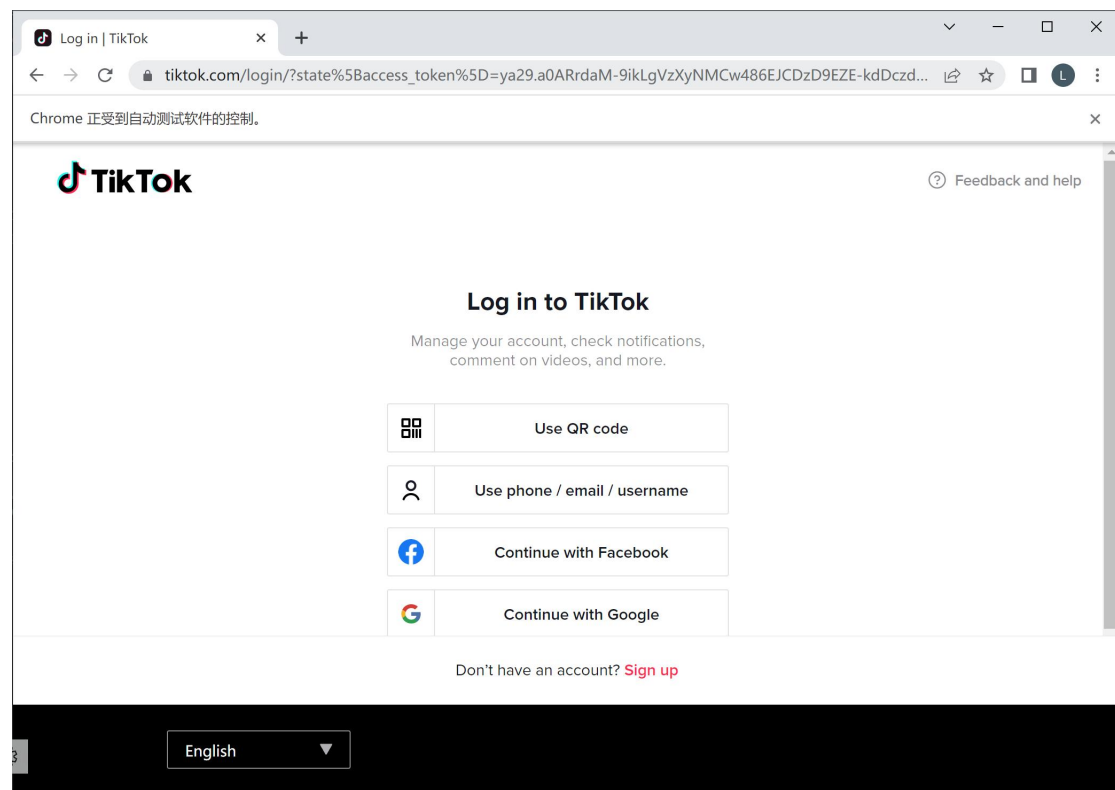

运行程序，输入视频链接，回车

请输入需要爬取视频的链接: <https://www.tiktok.com/@iamtheodoratheexplora/video/7076259537858121002>

10s 内输入验证码

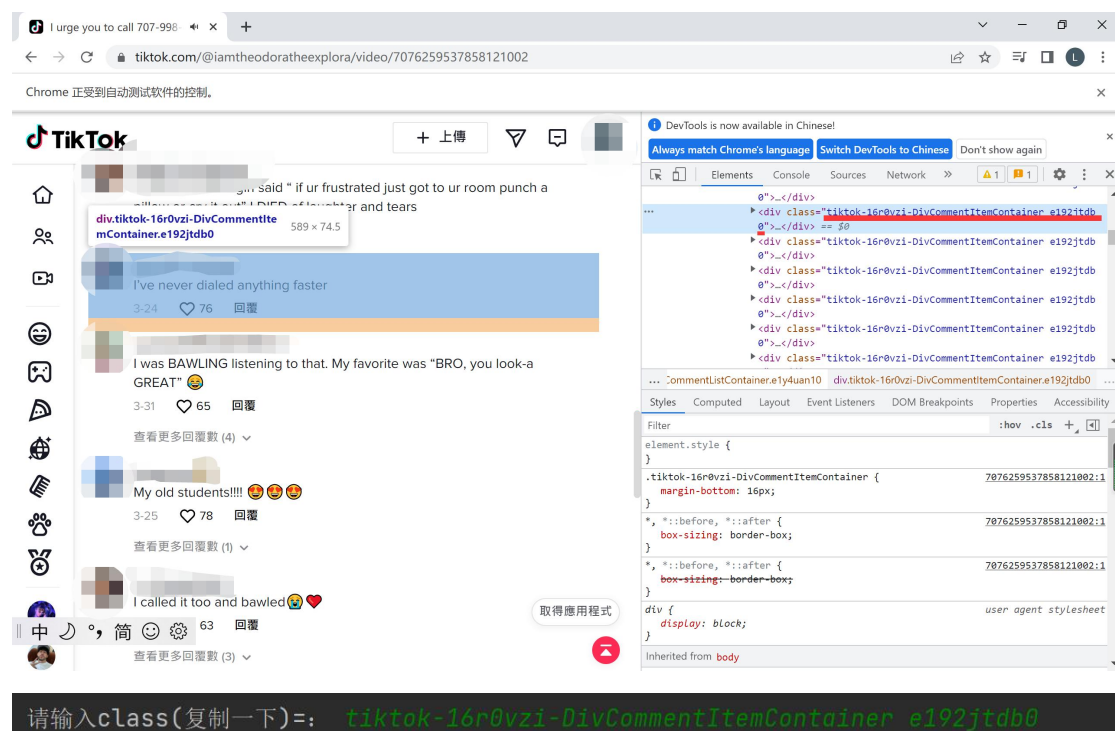

登录 tiktok 账号

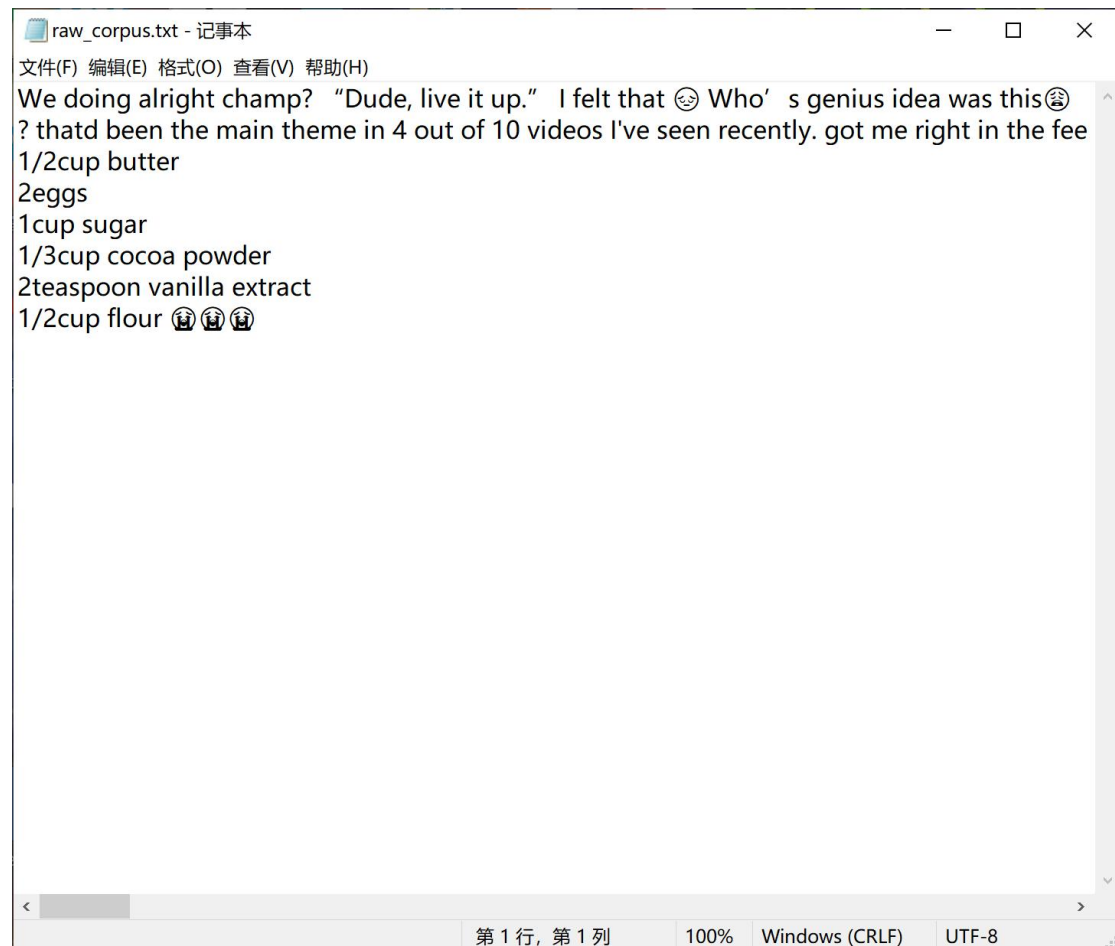

疯狂下划加载评论 ing（手好累）

（所有评论加载完毕后）右键-检查 复制下图蓝色块对应的 class 的值（红线标注的部分），粘贴到程序中，回车，等待

得到 txt，可以拿来作词云，做情感分析等等（因为后面 idea 大改了，此项目废弃，所以词云做得非常敷衍 hh）

仅是演示哈，完整爬取的评论文本见 demo_corpus.txt

The image shows a Notepad window titled "raw_corpus.txt - 记事本". The menu bar includes "文件(F)", "编辑(E)", "格式(O)", "查看(V)", and "帮助(H)". The text content is as follows:

```
We doing alright champ? "Dude, live it up." I felt that 😊 Who' s genius idea was this 😊  
? thatd been the main theme in 4 out of 10 videos I've seen recently. got me right in the fee  
1/2cup butter  
2eggs  
1cup sugar  
1/3cup cocoa powder  
2teaspoon vanilla extract  
1/2cup flour 🍪🍪🍪
```

The status bar at the bottom indicates "第 1 行, 第 1 列", "100%", "Windows (CRLF)", and "UTF-8".

listening know said little pure someone groundhog place Awww U0001f979 happy
right glad good crying great need t
going hard take felt exact balling high absolutely today bc look
never saving felt precious saw Imao loved balled damn way
feel Thank heart best sent people awesome whole hear morning
number better u sweet
much saved listened didn't live reaction video hearing child lol
tear cry now called Oh trust
ago phone broke children first looking tell advice wallet laughing friend watching Spanish nice buy
day world needed one
ice week sad girl im feeling work sobbed Dude beautiful night
well hug listen ve rn told ugly literally sending god voice laugh baby line cream school shoes last
try kid make thing sobbing really heard
amazing bawling contact calling sharing inner definitely option already S got
made love cute time
yesterday hotline adult immediately life choose area adorable give started
